WORK EXPERIENCE

3D-printer Operator   2021-2022

LLC "Colibry" l Odesa, Ukraine

Managing 3D-printers. 3D-models printing. Fulfillment of single and large commercial orders. 3D-modeling of necessary components and selection of necessary materials.

ABOUT ME

I am a student at a Czech university who completed two years of self-study in programming, but have no commercial experience. I have three IT School's certificates with high scores and leading positions in the group. Programming reflects not only my profession, but also my lifestyle. With the **softskills** listed, I excel in demonstrating adaptability, working in team or independently. This combination of technical and interpersonal skills drives my desire to be a universal and effective Front-end Developer.
